by William L on 2018-01-31

My appointment was on time and exactly the length as projected. The work undertaken was, at least to me, major in severity but was accomplished with just freezing the specific locations and I did not experience what I would consider pain (more of a discomfort) and was completely unaffected the next day. I consider this to

be part luck on my part but mostly the professionalism and technical expertise of the staff along with state of the art equipment that provides these results.

Please read between the lines as this statement is intended to imply that all of my dental requirements have been met and exceeded, from a health, functional and artistic perspective. I must also commend the staff as I have challenged them with some unique insurance programs and I was shown a "can do" attitude that provided a win-win for all. My experiences at Dentistry By Design are always good ones. Everyone is always so friendly and helpful, from the Dentists, Assistants, Hygenists and Receptionists. They work appointments out with my schedule, and wait for me to decide when I want or need work done. They won't go in and do work until they are sure it's needed and I understand what and when it needs to be done. They explain pretty much what they are doing while they are doing a procedure (recently a root canal) and I felt I understood what he did when I was done. I am never nervous about going in for my appointments. Lori

I have and will continue to recommend Dentistry By Design to everyone I know. I recently had a root canal done for the first time so needless to say I was extremely nervous. The dental assistant was so understanding and reassuring. I immediately felt at ease and was actually able to relax during the procedure. They even gave me a headset to listen to music to help calm some nerves. The entire staff at Dentistry by Design seem to enjoy their jobs and it shows every time! Thank you!

Once again, the staff at Dentistry by Design did not disappoint. No offense, but going to the dentist is not my favorite thing in the world and when you have to get a new crown, it is even worse. From the moment I walked in to the moment I left, I felt like I was the most important person in the place. Dr. Tim and his assistant were caring and concerned about me and my needs, seeming to know when I needed a break before I even did. I am SO glad that my husband had to go to them as required by the Military or we would have not have even known how great they are. I could not be happier with Dr. Tim and his staff.

You can say I got my smile back, and it feels good. On January 3rd Dr. Tim put in place my new 2 front teeth. He put in a total of 3 new front top teeth. He and his assistant Tammy did a great job. From my first visit with them back in September to my last visit on the 3rd of January they have given me care. They both made me feel at ease at all of my appointments, and let me know at all times just what they were going to do. Dr. Tim, Tammy and the office team want you to be very satisfied with there work. And I am totally satisfied of what they did for me. My wife Rosie and my two daughters Amanda and Ashley have told me it is great to see me smile again. Most of my visits are for cleaning and a check-up. The dental hygienists have always been pleasant and competent. My last visit was for a semi-emergency. A piece of one tooth had broken off, but I was in no pain. Fortunately the I was able to retrieve the piece. The receptionists were excellent at working me in in a timely manner. Dr. Tweedy was able to re-attach the broken piece quickly and get me on my way. I've been a patient there for many years and have always had a good experience no matter what the reason for my visit. I always highly recommend Dentistry by Design whenever I have the opportunity.

I wanted to say thanks for a wonderful visit...as usual! After Andrea brought me back for my dental work, Nancy was walking through and saw me dressed in summer clothing. She asked if I would like a blanket and I accepted her offer. A few minutes later she arrived carrying a blanket that she had tightly wrapped in her arms next to her chest. Nancy opened it up and put it over my legs. It was delightfully soft and warm as she had heated it up in the dryer before covering me up. I asked if this was a dental office or a spa! What amazing customer service. I had a seriously great time with Andrea and Tiffany as well. I sincerely enjoy my time with your staff. They are talented, personable and caring. I am one of the many that avoided going to the dentist for quite some time because of irrational fears. I finally made an appointment for a cleaning and was told I had several cavities that needed to be filled. I was given the option to do this in one sitting or over as many sitting as I needed. While my cavities were being filled I was given headphones with Pandora internet radio. I was constantly being asked if i was doing okay and given "breaks" when I needed them. I felt completely comfortable during the entire experience. I would recommend Dentistry by Design to everyone. I couldn't have asked for a better experience. Thank you!

As a person covered by insurance provided by a small business, I have been used to not having great insurance. Before moving to Dentistry by Design, I was at another dental office. I knew that with our insurance, I probably wasn't getting the best dental care, but assumed that at least we were getting the best price. Not so much. After finding out that I needed to have some major dental work done, I followed a dear friend's suggestion to at least compare the price I was given to by my dentist to what Dentistry by Design would charge. Imagine my surprise when I found out the Dentistry by Design was even more affordable than my "walmart" style dentist. To come here and have the level of care, attention to detail and quality dentistry has been a true blessing. Dentistry by Design has been such a positive switch, I can't believe that I settled for less for so long. Thank you to the entire team at Dentistry by

Design....what a joy it is to be a part of such a positive dental experience!!! Plus...I love the new counters :)

Hard to believe that going to the dentist can be a pleasant experience, but it is here! Both Timothy and Tiffany are wonderful, and they've brought together a staff that is personable and caring.

by Kristi H on 2011-04-22

This was my first regularly scheduled appointment at Denistry by Design. Prior to coming over here, I was at a facility that was more like "Denistry to the Masses". I felt like I was one of many, and although I think the care was okay, I assumed at least the cost was probably the best..you know, like Walmart, only in Denistry. WRONG!! The services at Denistry by Design were more affordable across the board, but best of all...the care is SO much different. I have not had as thorough of an exam or cleaning EVER! I am thrilled and will be switching my children over for their next cleanings too. Excellent job!

I've been going to Dentistry by Design for about 2 years now and have never been disappointed. Their customer service is excellent. Tim and Tiffany are open and easy to talk to. I love it that they mostly care about my dental health, and if I choose to work on a cosmetic aspect, that's fine, but they do not push me to do anything that I'm not comfortable with.

There is no better group of dental professionals that you can trust than at Dentistry by Design . From the friendly faces at the reception desk, to the hygenists, to the dentists, I trust them all and actually enjoy having a dentist appointment. In fact I was laughing so hard I was crying while getting some work done! The pride that they all take in the work that they do has kept my family of 5 a very loyal and happy patient for over 10+ years. These professionals will be your last stop when looking for a family dentist. They continue to exceed expectations.

I arrived at Dentistry by Design in late 2009 after a very negative experience through another local dentist. Dr. Tiffany immediately made me feel comfortable when I needed it most. I knew I was in good hands. I have since been treated by both Drs. Tiffany and Timothy. Each visit has been wonderful and the work they have done is amazing! I truly appreciate their genuine concern, support, and open dialogue. I no longer fear my trips to the dentist - instead i actually look forward to them. Thank you!

It's nice to see those smiling faces from customers and staff.
